## Senior Front-end Developer

Frontend Web Developer experienced in building modern, high-performing applications using Next.js, React.js, and TypeScript. Strong background in communication, management, and IT services.

### WORK EXPERIENCE

#### Elsewhen Ltd.

12/2025 – Present

Elsewhen is a premier AI and digital product consultancy based in the UK that partners with global enterprises to modernize their operations. They specialize in shifting organizations from basic AI tools to scalable, agentic systems. Their core focus spans AI strategy, complex digital product engineering, and enterprise cloud architecture for high-profile clients including Google, Spotify, and Mastercard.

#### Senior Front-End Developer (NextJs) • Full-time

London, UK

- Engineered the platform migration from Gatsby to Next.js, overhauling the frontend architecture for improved rendering performance and scalability.
- Designed the component structure and technical architecture for the Next.js environment, establishing robust frontend standards for the codebase.
- Built and deployed new custom features using React and TypeScript to support dynamic marketing initiatives and continuous platform updates.
- Collaborated as a key technical contributor within the internal team, handling production maintenance, technical debt resolution, and code optimizations.

#### LinkPlus IT

03/2025 – 12/2025

#### Senior Front-End Developer • Full-time

Prishtina, Kosovo

Currently working on a major project for a high-profile client of LinkPlus (NDA). Responsible for developing new features, optimizing and refactoring existing code for better performance, and ensuring code quality and consistency across the team.

- Transform project architecture from React + Vite to Next.js for improved scalability and performance.
- Implement UI components using Tailwind CSS and shadcn for a consistent and modern design system.
- Build application logic with TypeScript for type safety and maintainability.
- Migrate state management from React Context (useContext) to Zustand for better scalability and performance.

#### Vutal

04/2024 – 03/2025

#### Lead Front-end Developer (ReactJs) – Project based • Full-time

Denmark

As Lead Frontend Developer for the Vutal project, I designed and implemented the front-end architecture, led the team, reviewed code, and maintained high standards. Using React, I created, updated, and optimized the UI to deliver a seamless and visually appealing user experience.

- Designed and implemented the front-end architecture for the Vutal project using React.js and Next.js.
- Led the frontend team, reviewed code, and ensured adherence to coding standards and best practices.
- Built and optimized UI components using TypeScript, Tailwind CSS, and shadcn for a modern and consistent design.
- Managed state efficiently with Zustand for scalable and maintainable application architecture.
- Created, updated, and refined features to deliver a seamless, high-performance, and visually appealing user experience.

#### Teamway

07/2022 – 12/2024

#### Technical Screener

Denmark

As an interviewer in the third step of my recruitment process, my duty is to thoroughly evaluate the candidates who wish to join our company.

My responsibilities include testing their English language proficiency, assessing their communication skills, and checking their technical abilities and expertise. I am responsible for conducting interviews that are fair, impartial, and consistent, providing a level playing field for all candidates.

My goal is to determine if the candidates meet the requirements and standards of our company, and if they have the necessary skills and experience to perform the job they are applying for. To fulfill my duties effectively, I will need to have strong interpersonal skills and the ability to communicate effectively with a diverse range of candidates. I should be able to identify and assess the strengths and weaknesses of each candidate and provide constructive feedback that can help them improve and develop their skills. Additionally, I will need to stay up-to-date with the latest recruitment trends and best practices to ensure that our company attracts and retains top talent.

## **Freelance**

**11/2023 - 04/2024**

### **Frontend Developer • Freelancer**

**Kosovo**

Worked independently as a freelance Frontend Developer, delivering complete projects from design to deployment.

- Completed <https://albesiansekiraqa.com>
- Completed <https://bstrade.store>

- Designed, updated, and optimized frontend architectures to ensure high performance and seamless user experience
- Ensured cross-browser compatibility and maintained code quality across projects

## **Sogody**

**07/2021 - 07/2022**

### **Front-end Web Developer (React) • Full-time**

**Prishtina, Kosovo**

Working as a Front-end Web Developer at Sogody, I focus on building, upgrading, and maintaining high-quality website architectures. I ensure cross-browser compatibility, create functional and user-friendly interfaces, and keep projects up-to-date with the latest front-end standards. I also work with Sanity CMS to update and create required fields.

- Developed websites and UI components using React.js, Vite, Gatsby, Shopify, and Styled Components.
- Built responsive, high-performance, and user-friendly interfaces for clients.
- Ensured cross-browser compatibility and optimized website functionality.
- Researched and implemented best practices to maintain updated and scalable project structures.
- Worked with Sanity CMS to manage and update dynamic content efficiently.

- Successfully completed the <https://myolav.com> in collaboration with the team.

## **Frakton**

### **Front-end Web Developer (React) • Full-time**

**05/2019 - 07/2021**

**Pristina, Kosovo**

Working as a web developer at Frakton, I am responsible for monitoring, upgrading, fixing, and building websites with high quality. As a front-end developer, I ensure cross-browser compatibility and create functional, user-friendly interfaces. I have also contributed as a back-end developer on several projects. I have been part of more than 14 projects.

- Developed and maintained websites using React.js, Gatsby, JavaScript, PHP, and WordPress.
- Built responsive and functional UI components for various clients.
- Ensured cross-browser compatibility and optimized website performance.
- Fixed and upgraded existing websites to meet modern standards and client requirements.
- Collaborated on back-end functionality for select projects to deliver complete solutions.
